P PRANEETH YUVRAJ

Hyderabad, India
+91 8125861345 | praneethyuvaraj2002@gmail.com

Professional Summary

Aspiring AI Developer with hands-on experience building Generative AI, Retrieval-Augmented Generation (RAG), and AI Agent applications using Python, LangChain, FastAPI, Vector Databases, and Large Language Models. Skilled in prompt engineering, AI workflow orchestration, API development, and machine learning fundamentals. Passionate about developing intelligent systems that solve real-world business problems.

Technical Skills

Programming Languages: Python, SQL, Java

Generative AI: OpenAI API, Gemini API, Prompt Engineering, RAG

AI Frameworks: LangChain, LlamaIndex, CrewAI

Machine Learning: Scikit-Learn, Pandas, NumPy

Backend Development: FastAPI, REST APIs

Vector Databases: ChromaDB, FAISS

Databases: PostgreSQL, MongoDB

Tools: Git, GitHub, Jupyter Notebook, VS Code

Cloud Fundamentals: AWS Basics

Projects

AI Resume Screening Platform Python, FastAPI, Gemini API, PostgreSQL

- Developed an AI-powered recruitment platform for automated resume analysis and candidate ranking.
- Implemented resume parsing and skill extraction using Large Language Models.
- Built FastAPI services for candidate evaluation and job matching workflows.
- Designed PostgreSQL databases for candidate profiles and job requirements.
- Improved recruiter efficiency through AI-generated candidate insights and recommendations.

Multi-Agent Research Assistant Python, LangChain, CrewAI, Gemini

- Developed a multi-agent AI system capable of performing autonomous research and report generation.
- Designed specialized agents for information retrieval, summarization, and content generation.
- Integrated LLM APIs to automate research workflows.
- Implemented structured report generation from multiple information sources.
- Improved productivity by automating repetitive research tasks.

RAG Knowledge Assistant Python, LangChain, ChromaDB, FastAPI

- Built a Retrieval-Augmented Generation (RAG) application for question answering over custom documents.
- Implemented document ingestion, chunking, embedding generation, and vector storage.
- Utilized ChromaDB for semantic search and contextual retrieval.
- Developed FastAPI endpoints for document upload and conversational interactions.
- Enhanced response accuracy through retrieval-based grounding techniques.

Education

Bachelor of Technology in Electrical Electronics and Engineering 2021 – 2024

Jaya Prakash Narayan College of Engneering

CGPA: 6.89 / 10

Jalajam Junior College Intermediate Education in MPC. 2018 - 2020

CGPA: 9.0

Chaitanya Central School SSC (CBSE) 2018

CGPA: 8.05

Certifications

- Generative AI Fundamentals
- Prompt Engineering for Developers
- Machine Learning Fundamentals
- Python for Data Science
